KEEP YOUR
STANDARDS HIGH.
WE DO.

**WE HOLD OUR PARTNERS
TO THE SAME STANDARDS**

Sharing an outdoor adventure with a companion or two gives your experience its very own energy. When we meet another brand that builds and tests their products with the same rigor as we do, a kinship forms. So we give them an exclusive partner badge and invite them along for the ride. It's another way we bring you the best options for customizing your Polaris vehicle without compromise. How better to send you and your crew out into the world?

DESIGNED
by the people who designed your vehicle.

TESTED
in the field so you ride with 100% confidence.

INTEGRATED PLOW MOUNT

The attachment points for the Glacier Plow System are integrated right at the factory and feature an innovative drive-up and go installation process.

P. 42

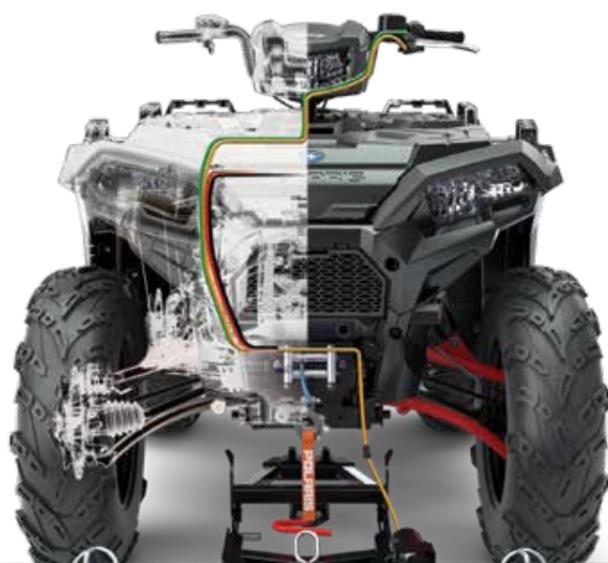

SUPERIOR INTEGRATION

Right from the factory, your vehicle is built to make essential accessories like winches and plows easy to use day-in and day-out. Mounting brackets are designed into the oversized factory bumper and wiring is routed securely and properly. When it comes to Sportsman, Polaris Engineered Accessories make work easier so you can get more done.

PRO HD SERIES HEAVY DUTY WINCHES

✓ Pre-wired chassis & no need to cut panels

Factory-installed wiring makes the controls simple to install. Mount the winch, connect the wires and trust that everything is routed safely, securely, and properly.

- ✓ Tested 1,200+ pulls at max load
- ✓ Built to withstand -29° C temperatures
- ✓ Operates fully submerged underwater
- ✓ Military tested and approved

1 Sealed permanent magnet motor

2 Cut steel gears and sealed drivetrain

3 PREMIUM SYNTHETIC ROPE

With its lightweight, yet extremely strong, design and superior flexibility, this 15.2 m long synthetic rope is easy to handle and can stand up to any tough job.

4 RAPID ROPE RECOVERY 5x FASTER

Retrieve cable 5x faster than standard mode on other Polaris winches. Get back to riding or complete your task quicker.

5 AUTO STOP TECHNOLOGY

Auto Stop technology protects and extends the life of your winch by automatically stopping the winch at the end of pull to prevent over-spooling. While plowing, it prevents the plow frame from bending by stopping the winch once the plow has been lifted.

✓ WIRELESS REMOTE

This convenient remote operates your Polaris winch wirelessly from within 15.2 m of the vehicle. Operate your winch safely outside your vehicle while on the job site or trails.

BECAUSE JUST ANY COOLER
WON'T CUT IT OUT THERE.

You need something rugged and reliable. A cooler purpose-built to handle the challenges of the off-road—while keeping your provisions on ice for days on end. Because out here, there are no ice machines, and you just left the last one in your dust. So, load it up. Lock it in. And know your NorthStar cooler is staying put—giving you a few extra days of ice time to enjoy the wild.

MAINTENANCE & GARAGE

FACTORY APPROVED. Every Polaris vehicle has been engineered and manufactured to deliver performance. Keep it that way by using the same lubricants, cleaners and service parts our factory-trained technicians use.

OIL & LUBRICANTS

Our PS-4 engine oils provide ultimate performance and protection, they're formulated with exclusive additives to keep engines clean from deposit buildup. These powersports-grade full synthetic oils helps maximize power and protect your engine for the long term.

PS-4 FORMULATIONS BEST PROTECTION, BEST PERFORMANCE

PS-4 5W-50 FULL-SYNTHETIC OIL

Optimal for ambient operating temperatures of -40°C to 38°C.

PS-4 0W-50 EXTREME FULL-SYNTHETIC OIL

Optimal for ambient operating temperatures of -43°C to 54°C.

1L 503220	4L 503221	25L 503233	» 60L 503236	» 200L 503235
--------------	--------------	---------------	-----------------	------------------

PS-4 EXTREME SYNTHETIC 0W-50

- Our best extreme high and low temp formula, excellent for high temperatures and racing, even at temps of 54°C, plus easier cold starting even below -42°C
- Expect the best in wear protection thanks to premium PAO and ester base stocks combined with a balance of moly and ZDDP additives
- Polaris exclusive clean engine additive system reduces deposits and carbon build-up for peak performance and power

THE BEST PROTECTION, MAXIMUM PERFORMANCE

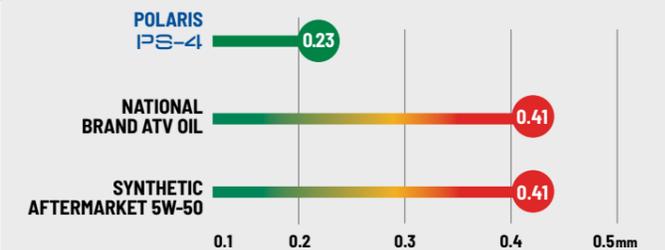

- Powersports grade full synthetics provide long lasting engine protection
- At least 40% improved wear protection compared to all aftermarket oils tested (see engine wear test chart)
- Polaris exclusive clean additive system
- At least 50% less deposits than all aftermarket oils tested (see deposit test chart)
- Cleaner engine with less deposits means consistent maximum power and performance

WIDEST VISCOSITY FOR ULTIMATE PROTECTION

ENGINE WEAR TEST

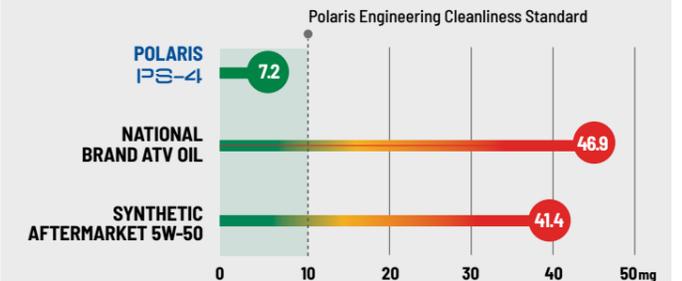

LOWER NUMBER = LESS ENGINE COMPONENT WEAR
LESS WEAR ON PARTS MEANS LONGER ENGINE LIFE

ASTM D4172. In 3rd party testing against 9 competitive products Polaris had 40% or better wear protection compared to all of the tested products. Numbers represent mm of wear scarring measured. Test measures wear at contact points, wear scar is measured for its length and width (in units of mm). Lower wear numbers mean better wear protection and friction reduction.

DEPOSIT TEST

LOWER DEPOSITS = MAXIMUM POWER

ASTM D6335. In 3rd party testing against 9 competitive products Polaris PS-4 had less than half the deposits compared to the next closest product. No other tested products met Polaris Engineering standards for deposit cleanliness. Test measures mass of deposits in mg in high temp, high stress test cycles. Higher deposits will impact engine power and performance.
